

NOTICE OF INTENT TO REMOVE TREES

The LARPD Board of Directors approved conceptual plans for Sunset Park Playground. The District's consultant on this project, RRM Design Group, is developing the plans and specifications for the approved new playground design. RRM Design Group has identified the need to remove two large Eucalyptus trees as a safety measure in preparation of the new playground. Drought resistant trees will be planted at appropriate park locations to mitigate the removal of these trees. There will be no fiscal impact to the Capital Improvement Plan Budget.
